Chief of Bhor

To,

L. C. SWIFTE, Esquire, I. C. S.,
Political Agent, Poona.

Bhor, 27th July, 1911.

Sir,

I have the honour to submit the Annual Administration Report of the Bhor State, for the year ending with the 5th of June 1911.

CHAPTER I.—GENERAL AND POLITICAL.

2. The area of the State is 925 square miles, the population, 137,298 (Census 1901) and the gross revenue based on an average of past five years Rs. 476,497-13-2. The tribute annually payable to Government is Rs. 10,000 in *chandwad coin*, but Rs. 5,316 of elephant subsidy are set off against this amount and the remainder of Rs. 4,684 is actually paid. There exist friendly relations between the State and the British Government according to the treaty of 1820. I have been honoured with a personal distinction of a salute of nine guns at the Coronation Darbar held at Delhi in January 1903. My full name is Shankerrao Chimnaji Pandit, Pant Sachiv, Chief of Bhor. My age is 57 and I am a *deshastha brahman* by caste. I have a son and a grandson by that son. I have intermarried with the family of the Sardar Vinchurkars.

3. In the month of June 1910, I had the honour to be present at the Levee and the Reception held by His Excellency the Governor, at Poona, as well as the birth-day Darbar held by the Agent for Sardars in the Deccan. At the time of the Reception, I had an opportunity of meeting the high European officers such as Councillors and secretaries.

4. In the month of September last I made a trip to Wai and Satara

5. I had the pleasure to be present in Bombay in November last to witness the marriage ceremonial of His Excellency there. Thereafter I made a trip to Benares on account of Lunar eclipse.

6. In December last I had the honour of meeting the Crown Prince of Germany at Bombay.

7. I made my usual Jamabandi tour in the four Talukas of the State in January last.

8. I had to stay at Poona in February and March last on account of serious illness of my grandson.

9. I paid Rs. 1,500 as contributions towards the memorials of His late Majesty Edward VII.

10. I have sent through the Political Agent, Poona, my address of congratulations in a beautifully ornamented golden casket for submission to His Imperial Majesty at the time of the Coronation in England in June, 1911.

11. His Excellency the Governor with Lady Clarke on way to Mahableshwar was pleased to make a short stay at Shirwal in April last, in response to the invitation accepted and promise given in October last, at the time of accepting tea there. His Excellency was pleased to accept a municipal address presented there and left for Mahableshwar after taking tea. His Excellency was accompanied by his staff.

12. There are no residency officials in this State.

13. The High State officials are the same as those of the last year.

CHAPTER II.— ADMINISTRATION OF LAND.

14. The original work of the Land Revenue Survey Settlement was made by the British Government. The Rayats can pay the assessment easily. The Survey Settlement has been introduced in some places for 25 years and in some places for 15 years.

15. On the whole, there were 37 Inam villages in which the Survey Settlement was to be introduced. The work is complete in 14 villages leaving 23 as yet unsettled pending consent of the Inamdars concerned.

16. The extent of waste land taken up for cultivation, during the year of report, is about 363 acres out of 1,576 acres.

CHAPTER III.— PROTECTION.

Legislation.

17. The Laws and Regulations that are in force in the State are given in Appendix II.

18. No military force is kept in the State. An annual statement of armed men is submitted to the Political Agent in each January month.

Police.

19. There are armed as well as unarmed Police in the State. Armed Police have fusils for their arms. All the details of the Police in the State are given in Appendix IV.

20. No mounted Police are kept in the State. Swars from Huzur Paga are however always lent to render necessary assistance to the Police when required. During the year of report some Swars were placed at the disposal of the Chief Police officer and Foujdars of the State.

21. In the last year there was no case of murder in the State. This year there was one. The Police arrested one person in the case and placed him before the committing magistrate who discharged him.

22. Last year there was no case of culpable homicide. This year there was one case of culpable homicide. The accused in that case were tried and convicted by the Sessions Court

23. Last year there were 2 cases of offences under Sec. 304 A of the Indian Penal Code. This year there was no such offence. One case involving one accused of the last year was pending before the Magistrate. It was decided this year; and the accused was convicted.

24. Last year there was one case under Sec. 307 of the Indian Penal Code. This year there was none.

25. Last year there was no case of dacoity under Section 395 of the Indian Penal Code. This year there occurred one dacoity at Alande and the Police are investigating into it.

26. Last year there was no case of robbery under Sec. 392 of the Indian Penal Code. This year there were 4. They also are under Police investigation.

27. This year also there were 3 cases of offences under Sec. 457 as was the case last year. Including 2 of the last year 5 cases in all were decided this year.

28. Last year there were 202 cases of theft. This year the number is 193.

29. The above will show that the number of theft cases is less this year than that of the last year.

30. Appendix IV will show the total number of the Police and the cost thereof. The same will show departmental promotions and punishments. Last year the cost was Rs. 21,985-8-8. This year it is Rs. 22,285-2-11.

31. On learning that some habitual thieves waylay travellers on the roads and trouble them at times by robbing them of their possessions and also by throwing stones in rural districts, an extra-police was ordered to be kept to guard the safety of the people and a party of 12 police under a jamadar was also kept on patrol. Some Swars were also given for assistance to serve under the Chief Police Officer. Safety of travellers was also ensured by keeping some Swars to patrol in the night from Shirwal to Katraj tunnel. All these measures proved highly useful in mitigating the evils of troubles and breach of public tranquillity. This will show that the work of the extra force employed was satisfactory.

32. Appendix V, VI and VII will give the details of the working of the Police.

33. Appendix VI will show that the percentage of the property recovered or found out by the Police is this year less than that of the preceding year. The reason of this is that in April and May last a dacoity was committed at Alande in which the property stolen is reported to be worth Rs. 3,015 and a theft in Pownmawal Taluka where the property stolen is valued at Rs. 821-4-0. These two cases are still under Police investigation. But the close of the year having drawn near it became impossible to have the property recovered in the year of report. If the same be omitted from account the percentage of the property recovered becomes 75.

34. The area of the State is 925 square miles and this therefore gives one police for every four square miles.

35. The population of the State is 137.268 according to the census of 1901 and this therefore gives 1 police to every 638 persons.

36. This will show that the work of the Police was on the whole good.

37. There are in the State 480 Police Patils. They have not been empowered under Sec. 15 of Act VIII of 1867. They all perform the ordinary duties of cattle impounding and preventing the occurrence of offences.

38. The Foujdars and Jamadars of all the Talukas visit 30 villages per month in their Talukas and inspect the registers of births and deaths kept by the village officers. They also look to the sanitation.

39. During the year of report there were 32 cases of accidental deaths, last year the number was 38. The number of incendiarism this year is 64 against 59 of the last year.

40. As in the last year this year also there were no cases of infanticide, cattle-lifting, high-way-robbery, outlawry and border forays &c.

Criminal Justice.

41. The Huzur Criminal Court is the Chief Criminal Court in the State. Under this Court, there are, one Court of a Magistrate 1st class, one Court of a Special Magistrate 1st class, six Courts of Magistrates 2nd class and five Courts of Magistrates 3rd Class. Appendix VIII will show the work done by all these Courts.

42. It will also be seen from Appendix VIII that the total number of offences during the year of report was 468 against 409 of the last year. This shows an increase of 59 offences. Of these 468 offences, the Police investigated 350 and the Forest Department 14 offences. The rest were directly taken cognizance of by the Magistrates.

43. During the year of report, the percentage of convictions to persons brought before the Magistrates is 33, against 40 of the last year. Excluding 205 persons whose cases were compounded, the percentage comes to 56 against 62 of the last year. The percentage of discharges and acquittals this year is 34 against 31 of the last year. Excluding 4 persons committed to the Huzur Sessinos Court, 5 transferred and 19 remaining under trial at the end of the year in all 28, the percentage of convictions to persons brought before the Court, was 35 this year, against 43 of the last year. If the number of persons whose cases were compounded, be further excluded, the percentage comes to 62 against 66 of the last year.

44. Only one person has been punished with more than six months' imprisonment and 163 persons have been sentenced to undergo light punishments. No person was given capital punishment this year. The total amount of fine inflicted this year, was Rs. 1,346-14-3 of which Rs. 1,143-15 have been recovered. There remained 36 cases pending at the end of the year. Of these, 12 are under preliminary enquiry, 6 are pending production of evidence by the accused, 6 pending evidence of the complainants, 6 pending arrest of the accused, 3 pending appearance of the complainants and 1 owing to the accused being of unsound mind kept in the Lunatic asylum.

45. Appendix IX will show how many appeals in criminal cases were filed during the year of report and how they were disposed of.

46. In, all 4 applications were presented to the Huzur Court in its Revisional Jurisdiction. Two of these were allowed and 2 rejected. In the case of one of the two applications that were allowed the case was orderd to be retried after quashing the orders of the Magistrate and in that of the other the sentence of imprisonment undergone and fine was confirmed remitting the portion of imprisonment to be undergone.

Civil Justice.

47. There are in all five civil Courts in the State, namely one Huzur Special Appellate Court, one First Appellate Court, and three Munsiff's Courts of original civil jurisdiction. Last year, the number of the Courts, was the same.

48. Appendix X will show the work done by the Courts of original jurisdiction. During the year of report, the number of suits originally filed was 829. This gives a ration of suits to population as 1 to 165.

49. Appendix XI will show the original work of execution of the decrees of civil courts. In all 986 applications for execution of decrees were disposed of during the year of report. The ratio of the execution of decrees to population is 1 to 139.

50. The average duration of pending of suits and applications will appear longer in the case of the Bhor Munsiff Court. The reason of this will be found in the fact that there were 126 cases standing as the balance of last year pending disposal on account of prevalence of plague for a considerable period in that year. Execution work required less time this year.

51. During the year of report the number of suits involving immovable property, was 178, and their value amounted to Rs. 19,231-6-11. Last year figures for the same stood as 135 and Rs. 13,443-0-11 respectively. During the year of report the number of money suits was 651, and their value Rs. 48659-0-5. In the last year figures for the same were as 488 and Rs. 28,587-10-3.

52. Appendix XII will show the work done by the First Appellate Court as well as the Huzur Special Appellate Court.

53. During the year of report 9 applications were received by the Huzur Court under its extraordinary Revisional jurisdiction. Three of them, were allowed, five rejected and one remained pending at the end of the year.

54. During the year of report were received 10 applications for certificate of heirship under Regulation VIII of 1827 and there was one pending at the end of the last year. Of these 11 applications 5 were allowed, 3 rejected and 3 remained pending at the close of the year.

57. Under Act II of 1906 there were filed during the year of report 35 new suits in the Courts of Mamlatdars and there was 1 remaining at the end of the last year. Of these 36 suits, 35 were disposed of during the year of report and only 1 remained pending disposal at the close of the year.

58. The average duration required for the disposal of each suit is 14 days during the year of report, while 13 days was the duration in the last year.

61. There is a large and strong stone building used as jail in the town of Bhor. The building is surrounded by strong stone walls on all its sides. The rooms, in which prisoners, are confined, have their sides well protected by strong iron bars firmly fixed. They are well ventilated. Separate rooms are kept for female prisoners Accommodation for civil prisoners has been provided by setting apart a portion in the jail building. 67. One prisoner convicted by the Political Agent, Poona, was undergoing his sentence of imprisonment in the jail at Bhor. He too was given to understand in jail as intimated in letter No. Pol. 314 dated 4th July, 1910, that he had obtained one month's remission.

68. The above will show that the management in the jail was satisfactory.

73. This year the Shirwal Municipality had the honour of having presented an address to His Excellency the Governor who was pleased to make an hour's stay at Shirwal on his way to Mahableshwar in April last. The text of the address was as follows :—

THE MUNICIPAL ADDRESS.

May it please Your Excellency.

We, the members of the Shirwal Municipality, most humbly beg leave to express our most heart-felt thanks for the visit your Excellency has paid to this town, in company with her Excellency Lady Clarke, in response to the request, preferred by Shrimant Pant Saheb and allowed us the high honour of approaching your Excellency's feet. This auspicious occasion will ever remain fresh in our mind. We think it a great boon to the people of this presidency that they have been entrusted to the care of such a large-hearted, affectionate and sympathetic Governor as your Excellency. (Hear Hear) It was the intention of His Excellency Sir James Fergusson, the late Governor of Bombay, to take the line of the Southern Maratha Railway *via* Shirwal. Had this intention been carried out, the old town of Shirwal would have attained to great prosperity. We are much indebted to your Excellency's Government for having been pleased to start here for our convenience and facility a telegraph office since the 1st of April, at the request of our most beloved ruler, Shrimant Pant Saheb. Shrimant Pant Saheb takes great interest in the education of his subjects and has lately opened many free primary schools in order to enable the villagers to easily secure elementary education for their children. Our town is blessed with a vernacular school teaching the full Marathi course and we are glad to state that Shrimant Pant Saheb intends to shortly open an English Class here. Under the kind rule of Shrimant Pant Saheb dharmashalas, wells and chawadis have been built and roads have been constructed, almost throughout the State for facilitating trade and communication. In short we are proud to state that Shrimant Pant Saheb has always at his heart, the welfare and happiness of his subjects. It is a matter of great joy for all of us to know that His Imperial Majesty King George V Emperor of India (cheers), is coming out to hold a Coronation Darbar at Delhi, in ensuing December along with Her Imperial Majesty the Queen Empress.

We are proud that Your Excellency deeply interests yourself in the welfare of Shrimant Pant Saheb and this State and your Excellency's presence here is a sure indication of the close and intimate ties which unite our most loyal ruler to the British Government. We may be allowed to take this opportunity to express our high estimation for Her Excellency Lady Clarke, for taking deep interest in the social advancement of the women of the presidency. We are much thankful to Her Excellency for her gracious presence here. (cheers) The Municipality of Bhor enjoys the high honour of presenting an address to the Governor of Bombay, when he visits that capital town This honour is very rare to us, and hence we are specially indebted to Your Excellency for having graciously allowed

us to avail ourselves of the golden opportunity of presenting this humble address at your feet. In conclusion, we pray that God may grant health, strength, peace and prosperity to Your Excellency and Lady Clarke.

The reply of His Excellency was in the following terms:—

Mr. President and Members of the Municipal council of Shirwal.

It gives Lady Clarke and myself great pleasure to meet you to-day at the request of your Chief. Nearly two and a half years have passed since my dear daughter and I visited Bhor at the kind invitation of Shrimant Pant Saheb, and I had the opportunity of congratulating him on the happy position of his State, which is due to his thoughtful care for the welfare of the people. Since that time much has happened; but I am glad to think that, in spite of incidents which one cannot recall without pain, this Presidency has distinctly progressed and the State of Bhor has participated in the general advance. Your Chief knows the difficulties of Government, and is well aware that we must proceed with patience never yielding to discouragement and seeking always to do our best for the people committed to our charge. It is never possible to do all that we wish, and the most that we can hope to accomplish is to leave behind us seeds of progress which will bring forth good fruit in the future. If I can feel that I have done that, and if I have succeeded in winning and retaining the trust and affection of the people of the presidency, I shall always be glad that the great honour of serving His Majesty the King Emperor in this wonderful land was conferred upon me.

It is quite true that my predecessor Sir James Ferguson proposed that the Southern Maratha line should run direct from Poona to Satara, and in a minute written on the 18th April 1881, almost exactly 30 years ago, he stated that "the advantage of passing by Shirwal and Wai is very great." But the subsequent surveys showed that the cost of a line passing over the Katraj-ghat would be prohibitive, and Sir James Ferguson decided about a year later that this consideration was "conclusive" against the project which he had favoured. Shirwal has suffered only because topographical conditions which are all important in Railway construction were against its interests. Looking to the future, the fine project for the Nira Right Bank Canal, to which I alluded when I visited Bhor, has now matured and will shortly be sent to the Government of India for sanction by the Secretary of State. This project holds out great prospects for some of the arid tracts of the Deccan and I earnestly hope that it will be commenced before long. It will change the face of a large tract of country and it may justify the construction of a light line from Baramati to Nira with a prolongation to Shirwal As you know Mr. Godbole has been working hard for the Dhond Baramati Line, which I hope will be made, and the distance from Baramati to Nira is only about 25 miles while Nira is about 16 miles from Shirwal; but as I have said, the governing factor will be the effect upon agricultural production of the Nira Right Bank Canal between this place and Nira.

Government were glad to be able to accede to the request of your Chief by establishing a combined post and telegraph office at Shirwal, which I trust will prove an advantage to your citizens.

I am well aware of the interest which the Pant Sachiv takes in matters of education. I note an increase of schools in the last Administration Report and that Primary Education has been made free in four Talukas. I hope that this experiment will prove successful by attracting an increased number of children to the schools. It is interesting to know that there is a demand for English teaching, which doubtless holds out improved prospects of obtaining employment; but I hope that the effect of such teaching will not be to draw away cultivators who are needed on the land, where there are plenty of opportunities for the exercise of trained intelligence. India must always remain primarily an agricultural country, and in the wealth of the soil assisted by irrigation and by improved methods, there are great possibilities still to be realized.

The approaching visit of the King Emperor and the Queen Empress will be hailed with joy by all His Majesty's loyal subjects in India, who will see in it

their wish to associate themselves with their lives and to understand their needs.

We thank you for your hearty welcome to Shirwal, and my wife is deeply touched by your kindly reference to her great wish to help the women of the Presidency. We warmly wish prosperity and happiness to all your good people, and long life to your Chief, whose care for his subjects is as well known as his loyalty to Government, and whose friendship I value. My time in India draws to its close; but I shall carry away remembrances of the kindness of the people which will last my life and among them will be a pleasant recollection of our meeting to-day.

The High School is at Bhor, the secondary schools are at Shirwal and Pali and the rest are at several places in the rural parts of the State. In the new schools opened this year, education is imparted free of charge. The efficiency of such measures is evident from the fact that as a result of last year's experience 5 new schools had to be opened this year. More however will be learnt from further experience.

95. During the year under report 5 students were sent up for the University Matriculation Examination of whom 2 came out successful while 1 out of 6 sent passed the Vernacular Examination. Promotion and rewards were given to teachers for encouragement.

CHAPTER VIII.

98. There is one Printing Press in the town of Bhor in the State, and also one Library. The press-work is limited only to print various official requisitions. The Library is located in a separate room in the High School building. It is kept by the State at its own cost. The public have free access to the Library.

99. The destruction of wild animals and venomous snakes is rewarded on the same scale as is in force in the British Territory. During the year of report were killed 7 panthers, 18 snakes and 1 hyena, and the rewards paid for the destruction were respectively Rs. 33, Rs. 2 and Rs. 2 in all Rs. 37.

100. The foregoing will show that the administration of the State on the whole during the year of report continued to remain satisfactory as usual. The out-turn of crops was sufficient to meet the public demand adequately as was also the supply of water and fodder. Public health in general was fair. No epidemic visited the State during the year. There was no disturbance of public peace by commission of offences of serious nature. The work of the Forest Department proved to be satisfactory. The Public Works Department received due share of attention. Justice was efficiently and satisfactorily administered in all the courts Criminal as well as Civil. The work of Vaccination and Sanitation was promptly attended to. The Education Department progressed well with an increase in the number of schools. The medical and surgical work of the Dispensary too was well and satisfactory. During the year of report a decenial general census of the State was taken on the 10th March last. The work was done under close observation of all the instructions received from the British Census Officer. The result of abstraction work has not yet been received from the abstraction office Poona.

101. I feel much indebted to you for your valuable advice and support I received from time to time, enabling me to carry on the administration of the State satisfactorily. I am glad to point out specially that my State is quite free from any kind of seditious feeling in the public mind, and hope strongly that it will ever remain so.

102. In conclusion I have to express my deep sense of gratitude to you for your kindness in favourably reviewing my administration in making remarks

thereon. I am equally thankful to the Honourable Commissioner C. D. and to Government for their kindness in being pleased to support your views in this respect. Your remark on the last year's report runs as follows:— 'The Chief deserves to be congratulated on year's successful administration. It is perhaps almost unnecessary to remark that he has fully maintained his policy of ready cooperation with the British Government of close personal contact with every branch of the administration of his State and of devoting his energies to the prosperity and advancement of his subjects.'

I have the honour to be,

Sir,

Your most obedient servant,

SHUNKARRAO,

Chief of Bhor.

1911-12.

From,

His Highness Shrimant SHANKAR RAO PANDIT,
PANT SACHIV, Chief of Bhor.

LIBRARY OF THE BOMBAY BRANCH OF THE ROYAL ASIATIC SOCIETY

To,

L. C. SWIFTE, Esquire, I. C. S.,
Political Agent, Poona.

Bhor, 30th July, 1911.

Sir,

I have the honour to submit the Annual Administration Report of the Bhor State, for the year ending with the 5th June, 1912.

CHAPTER I.—GENERAL AND POLITICAL.

2. The area of the State is 925 square miles, the population, 144,587 (Census 1911) and the gross revenue based on an average of past 5 years Rs. 483,165-1-2. The tribute annually payable to Government is Rs. 10,000 in *chandwad coin*, but Rs. 5,316 of elephant subsidy are set off against this amount and the remainder of Rs. 4,684 is actually paid. There exist friendly relations between the State and the British Government according to the treaty of 1820. The honour of an addition of 2 guns to my previous salute of 9 guns bestowed upon me at the Delhi Coronation Darbar of 1902, was conferred upon me by His Most Gracious Imperial Majesty at the Coronation Darbar held at Delhi in December last, and hence I am now entitled to the personal distinction of a salute of 11 guns carrying with it the designation "His Highness". My full name is Shankarrao Chimnaji Pandit, Pant Sachiv, Chief of Bhor. My age is 58 and I am a *deshastha brahman* by caste. I have a son and a grandson by that son. I have intermarried with the family of the Sardar Vinchurkars.

3. In the month of June, 1911, I had the honour to be present at the Levee and the Reception held by His Excellency the Governor, at Poona, as well as the Birth-day Darbar held by the Agent for the Sardars in the Deccan. While at Poona, I had the pleasure of meeting the high European officials such as His Excellency the Governor, the Political Agent, Councillors and Secretaries, and receiving return visits from them.

4. The coronation day *viz* 22nd June, 1911, was most enthusiastically celebrated in the Bhor State. Sweets were given to the school-children and alms and clothes were distributed among the poor. The state-buildings were beautifully illuminated at night.

5. In the month of October I made my usual jamabandi tour in the three Talukas of Vichitragad, Rajgad and Prachandgad. This year the crops had suffered much owing to the failure of the closing rains. The loss was however compensated to a small degree by the most opportune November rains. The agriculturists were greatly encouraged by the good condition of the Jawari crops

and the intensity of famine was lessened to a certain extent. There was no deficiency of fodder for animals in the State, but the deficiency of the same in the adjoining Districts has naturally produced its evil effects and caused some dearth in the State. In order to mitigate the evils of the scarcity of water dams were erected at suitable places at the expense of the State in each Taluka. By the grace of God the State of Bhor has remained free from any sort of epidemic or other infectious diseases both among men and cattle.

6. I had the good fortune to attend in company with my son and Karbhari the most picturesque and unprecedented Darbar held at Delhi in December last by Their Most Gracious Imperial Majesties in order to announce the auspicious event of Their coronation, in response to an invitation so kindly sent to me by Government.

7. A Spacious, airy and healthy site towards Vazirpur Road was parcelled out to me for the erection of a camp on an elevated plain assigned for the use of the Bombay Chiefs' Camp Block No. II. There a beautiful camp was prepared according to the proposed standard by the State Engineer and overseer who were on the spot since September, busily engaged in making roads and trimming the camp to the best of their ability. The conveniences of water, telegraph, telephone, Post, roads &c. were all that could be desired. I am much indebted to Major Berthon who was Political officer in charge of Bombay Chiefs' Camps for the ready assistance and willing advice which my men always received at his hands.

8. I left Bombay for Delhi on the 21st November by the Punjab Mail and visiting, en route, Hoshangabad, Gwalior, Agra, Mathura, and other places of interest, reached Delhi on the 1st of December, 1911. The nearest rail-way station to our camp was the Provincial Camps' Station where Mr. Townshend Assistant Political officer had been present in good time to receive me.

9. On the 7th I had the good fortune to make my most humble dutiful and loyal obeisance to Their Imperial Majesties the King Emperor and Queen Empress at the station. My officers and myself were accommodated in two State carriages in the grand procession that was formed for the Majestic Ceremony of the state entry in Delhi.

10. On the 8th at 3-30 P. M I attended the ceremony of laying the foundation stone of the "All India King Edward Memorial".

11. On the 9th at 10-45 A. M. I got the golden opportunity of making my most respectful obeisance to His Imperial Majesty at the Imperial Camp when I am very glad to say I received very cordial treatment at the hands of His Imperial Majesty.

12. While at Delhi I got an opportunity of meeting Lord Harris the ex-Governor of Bombay and Lady Harris and their son Honourable George Harris, who had specially come to India as guests of the Bombay Government to witness the grand Delhi Darbar, and gave a very warm reception to me.

13. On the 12th December, 1911, the picturesque, long looked forward and unprecedented Darbar in the annals of India, was held at 12 A. M. at Delhi in the specially erected amphitheatre. When my turn came in the settled order I slowly proceeded to the Throne and made my most humble and loyal obeisance to Their Imperial Majesties King George V Emperor of India and Queen Mary Empress of India according to the ancient tradition of my house, which I am very glad to say, was most heartily accepted. In the same Darbar I am very glad and proud to say the Gazette announcing the conferrment of an addition of two guns to my salute by His Imperial Majesty fell into my hands. Words fail me to give an adequate expression to the sentiments of everlasting gratefulness

which I feel towards His Imperial Majesty and Their Excellencies the Viceroy and the Governor of Bombay for the bestowal of the high distinction.

14. After the reading of the Proclamation and receiving the obeisance of the Princes and Chiefs assembled, Their Imperial Majesties left the amphitheatre in great pomp and grandeur and the Darbar was closed.

15. The Darbar day was celebrated throughout the Bhor State with great enthusiasm. The Royal Proclamation was read over to the people and sweets and medals were given to the school-children, alms and clothes were distributed among the poor, and prizes were given to the successful wrestlers. Fire works were displayed, and the State buildings were tastefully decorated in the night.

16. The year 1911 has become memorable by the unprecedented Visit of Their Imperial Majesties to Their Indian Empire which has not only strengthened the bonds of loyal union between England and India but has also roused deep devotion towards the Crown and great possibilities and high hopes about the future in the minds of Their Indian subjects. The visit is pregnant with far-reaching results and will always remain fresh in their minds by the announcement of a number of fruitful and beneficial gifts and concessions at the Delhi Darbar.

17. On the 13th I met the Honourable Mr. Shephard, the Honourable Mr. Curtis C. S. I., the Honourable Sir R. A. Lamb member of the Council and Mr. Arthur in the Government of Bombay Camp and Sir James Dubboulay in the Viceregal Camp.

18. I attended the garden party in the fort on the 13th and the review of the troops and the Darbar of decorating the recipients of honors on the 14th.

19. I was present at the ceremony of laying the foundation stone of the proposed Imperial Capital Delhi at the hands of Their Imperial Majesties at 10 A. M. on the 15th and witnessed the Police review on the Polo ground at noon.

20. It is a matter of great gratification that His Imperial Majesty was graciously pleased to give me a gold medal and a silver framed and autographed Photo of Himself and Her Imperial Majesty as a token of Their visit, when His Imperial Majesty left Delhi for Nepal. I am greatly indebted to His Imperial Majesty for both these gifts which I have gratefully kept in my drawing-room to remind me of the happy reminiscences of the Royal visit.

21. On the 17th the Honourable Sir R. A. Lamb, Mr. Arthur and Professor Muller had specially come to my camp to congratulate me on the addition of two guns to my salute.

22. My thanks are also due to Mr. Townshend Assistant Political Officer who was entrusted with the work of looking to our conveniences and had his camp quite opposite to mine for the very valuable assistance he gave me during my stay at Delhi.

23. When all the functions at Delhi were over I left my camp on the 18th and arrived at Bombay with all my retinue of Swars Police &c. that I had taken with me at Delhi on the 7th January, 1912, *via* Jabalpur visiting en route Haridhwar, Lucknow, Ayodhya, Benares, and Allahabad.

24. I had been present at the Appollo Bunder on the 10th January in order to give a hearty sendoff and wish a bon return voyage to Their Imperial Majesties. It is a matter of great pleasure and sincere joy to note that the journey of Their Imperial Majesties from England to India and back proved a complete success by the grace of the Almighty.

25. My son Shrimant Baba Saheb, the two Karbharis Rao Bahadur Shridhar Abaji Satbhai, and Krishnarao Ramchandra Gandeker have received the Delhi Darbar medals.

26. I returned to Bhor on the 12th January from the Darbar and made the jamabandi tour in the remaining two Talukas of Pownmawal and Sudhagad in February and March. It is wise to restrict entry of outsiders to the Jail (excepting duly appointed visitors) as much as possible, otherwise undesirable results may occur. (*b*) The wages of skilled and unskilled labourers per day were respectively Rs. $\frac{3}{4}$ to $1\frac{1}{4}$ and annas 4 to 6. They are a little higher than normal. Appendix XVIII will show the prices of food grains.

(*c*) The numerical strength of the Forest Department this year was 104 against 103 of the last year. For the removal of the forest produce out of the State some 28,671 forest passes were issued during the year of report against 33,529 of the last year. The decrease is due to passess being issued and given per group of 10 loads. The total of fees realized is however larger by Rs. 91-1-3 than that of the last year showing that this year the export was not less.

(*d*) There are no manufactures and trades of importance in the State. The trade in rice crops only is however carried on to a considerable extent while the Sudhagad Taluka deals in timber and forest produce at times to a certain extent.

(*e*) Appendix XIX will show the details of the work done by the Public Works Department of the State giving also the expenses incurred on new works as well as on repairs of old works met from the State and Local Funds.

(*g*) There is no mint in the State.

Under similar circumstances some people from out-side come into the State. No definite number of such people can be ascertained for being given here.

103. During the year of report there were performed seven *Post Mortem* examinations.

104. There were no diseases of epidemic character in the State during the year of report. The Political Agent, Poona, visited the Dispensary while at Bhor

in March last and passed the following remark :—

"Visited and found the institution as usual well kept and fully equipped. The accomodation and equipment leave nothing to be desired.

The prevalent diseases as before, are worms and malaria both largely traceable no doubt to the copious water supply with which the town is provided. It is again suggestive (*vide* my remarks previously recorded) to the local authorities that a determined attempt should be made to restrain the ravages of malaria which proves such a scourge to the town and doubtless causes much indirect loss to the State and the population. The undersigned will be glad to assist in obtaining the necessary literature on the subject, should an anti-malarial campaign be decided on.

As suggested by me 7 years ago it would be well if another dispensary, even though less complete, were started in another part of the State which is far too large to be properly served by one dispensary only. The question of entertaining a trained mid-wife at Bhor is also (as remarked two years ago) one which invites early attention. &c. &c.

(Sd.) L. C. Swifte,
Political Agent.

105. The travelling dispensary continued to be maintained during the year of report where 443 patients were treated including delivery cases and surgical operations.

Births	5,162	6,451	1,289	.....
Deaths...	3,485	3,252	.....	233

108. The acccuracy of registration of births and deaths was ensured by prompt measures. The same will be seen from Appendix XXIV.

CHAPTER VII.—EDUCATION.

109. The progress of education in the State continued to be satisfactory. The number of schools in the State is 59 and that of pupils 2.094 of which 1,857 are boys and 237 girls The last year, the same stood as 1,649 and 244 respectively with a total of 1,893 pupils. 111. The Political Agent, while at Bhor, was pleased to honour the Bhor

High School with his visit and presiding over the annual prize distribution ceremony he made a short speech and passed a few remarks to the following effect:—

Your Highness, Shrimant Babasaheb, Mr. Ranade and gentlemen.

As it is already late, I do not mean to detain you long. However as this is the only opportunity I shall have of addressing you, while here, I feel bound to make just a few remarks.

It has really given me a great pleasure to come among you again and meet you here today after the lapse of two years. As you all know I am not a stranger to this place as I have been connected with this State on and off for nearly ten years. During this period I have visited Bhor three or four times and I hope this will not be the last occasion of our meeting.

It was a matter of great gratification to me to distribute prizes and sweets to the students who successfully passed the last annual examination. I am happy to congratulate them all on their success and have no doubt that the prize books, which were numerous and many of them very interesting, will encourage them to work hard and again do similar credit to themselves and their teachers.

At the same time those who failed and were not fortunate enough to secure any prize this time, ought not to be discouraged or disappointed, but should work on cheerfully with the determination that they will be more successful next year.

This is the first time I have been at Bhor since the high honour of a salute of eleven guns with the distinguished title 'His Highness' that goes along with it, was conferred upon Shrimant Pant Saheb by their Imperial Majesties at the last Delhi Durbar. I therefore gladly take this opportunity of congratulating him publicly on the addition of two guns to his salute, an honour which he has won by his long continued good work and administrative ability. I need hardly add that I wish him long life and best health to enjoy this newly secured distinction. The honour has considerably raised the position of your chief among the ranks of the chiefs in the Bombay Presidency, indeed I may say in the whole of India. Your chief has earned this distinction by his efficient rule and loyal cooperation with Government, in all the measures which he either undertook himself of his own accord or which were brought to his attention from outside. By honouring him, Their Imperial Majesties have honoured also Bhor State and therefore all the inhabitants thereof. So you his loyal subjects ought to feel a personal pride in the matter. I am sure His Highness will continue to take more and more interest in the welfare of his subjects, and earn their everlasting gratitude as well as endeavouring to secure even greater distinctions at the hands of the Imperial Government.

Before I close, there is one more matter I wish to mention, that is, the princely donation of Rs. 50,000 which His Highness has made towards the Poona Edward Memorial Hospital. For this I beg to warmly tender my best thanks to His Highness, speaking not as the Political Agent but on behalf of the people of the city of Poona, who have every reason to be greatly indebted to His Highness for his generous and well considered gift. Though this gift has been made to a charitable institution out of the State, you the subjects of the Bhor State can, should occasion arise, take advantageof the expert medical relief which will be available at the Poona Edward Memorial Hospital, by sending there, women and children patients requiring prolonged and skilled attention.

As to the educational report just read over to us by Mr. Ranade, I am very glad to note that six new primary schools have been opened this year in the State. Education of the moasses is an important problem and there can be no doubt whatever that the subject of education receives from His Highness a very full measure of his care and attention.

Thanking you all for cordial welcome and with a hope that this will not be the last occasion on which we shall meet here, I now wish you for the present farewell.

The remark runs as follows:—

'Visited and as usual found this institution doing excellent work. I had the privilege of distributing prizes to the successful students, both boys and girls, and witnessed some of their performances which were very creditable.

I am glad to learn that during the past year six new primary schools have been opened in the State. There is no doubt that the subject of education receives a full measure of attention from His Highness the Chief.

The efficiency of the High School reflects credit on the Head Master Mr. V. N. Joshi who has served the State for a long time, and whose good work will doubtless receive due recognition at the hands of the Chief.'

(Sd.) L. C. Swifte,
Political Agent.

112. Besides the State schools there are also 4 private schools with 83 pupils in the State.

113. All schools are inspected by the State Shaladhikari annually.

114. Appendix XXV will give all the details of the educational work of the State.

CHAPTER VIII. — MISCELLANEOUS.

115. There is one Printing Press in the town of Bhor and also a library in the State. The Press only prints various works of official requisitions The library is located in the High School. It is maintained solely by the State. Public have free access to it. There is also one independent public library at Pali.

116 The destruction of wild animals and venomous snakes is rewarded on the same scale as in the British Territory. There were killed during the year of report 15 panthers, 19 snakes and 5 hyenas, and the rewards paid for their destruction respectively amounted to Rs. 105, Rs. 2-4-6, Rs. 9, in all Rs 116-4-6.

117. It will be seen from the account given so far and the accompanying appendices that the Administration of the State during the year of report was in every respect entirely satisfactory as before. The out-turn of crops and the supply of water and fodder were equal to the demand in the State, notwithstanding the short rainfall and high prices. Public health in general was fair, as the State was happily free from any kind of epidemic. The birth rate per thousand was a little higher and the death rate, a little lower than those of past year. Public peace was nowhere disturbed by the occurrence of any serious offences. The healthy policy of gradually supplying all villages with the useful Public Works of wells and chowrees was continued. The work of the Forest Department was satisfactory. All the civil and criminal courts have acquitted themselves well. Working of the Municipalities, the Prison and other minor institutions was also satisfactory. The medical and surgical work of the Dispensary and the work of sanitation and vaccination were excellent as usual. The department of education has shown good results along with a further increase of 7 schools of primary education.

118. The total of last year's census shows an increase of 5·33 per cent in the population and speaks for itself.

119. Before closing I take the opportunity of expressing my hearty thanks to you for your valuable advice and support on all points of importance, which have greatly enabled me to deal with the difficult problems in the administration, most effectively.

120. In conclusion I have to express my deep sense of gratitude to you for your kindness in favourably reviewing my last year's administration report in making remarks thereon. I am also thankful to the Honourable the Commissioner C. D. and to the Government for their being pleased to endorse your views on the subject.

121. On a review of the last year's administration report, remarks passed

by the Political Agent, the Commissioner and the Government are as follows:—

'He (the Political Agent) has been in close touch almost throughout the year with the Chief who has during that period given fresh proof of his readiness to listen to the Political Agent's advice to cooperate with the Government and to advance the welfare of his subjects. In the circumstances his relation with the undersigned has remained as always most cordial.'

The Honourable the Commissioner C. D. observed that he had nothing to add to the Political Agent's review.

His Excellency the Governor in Council while endorsing the above in his Resolution No. 7,754 dated 9th October 1911, Political Department remarks that the efficiency of the administration has been maintained and the finances are in a very satisfactory condition and that His Excellency is pleased to note that the civil courts, both original and appellate, disposed of their work without undue delays and especially that prompt attention is given to the applications for the execution of decrees.

I have the honour to be,

Sir,

Your most obedient servant,

SHUNKARRAO,

THE

ANNUAL ADMINISTRATION REPORT

OF THE

BHOR STATE

FOR

1912-13.

Printed at the Bhor State Press.

No. 110 of 1913.

From,

His Highness Shrimant SHANKARRAO PANDIT,
PANT SACHIV, Chief of Bhor.

To,

L. J. MOUNTFORD, Esquire, I. C. S.,
Political Agent, Poona.

Bhor, 30th July, 1913.

Sir,

I have the honour to submit the Annual Administration Report of the Bhor State, for the year ending 5th June, 1913.

CHAPTER I. — GENERAL AND POLITICAL.

2. The area of the State is 925 square miles. The population is 144,587 according to the Census of 1911. The gross revenue based on an average of past five years is Rs. 487,029-4-4. The tribute annually payable to the British Government is Rs. 10,000 in *chandwad coin*. Rs. 5,316 are set off against this amount on account of the elephant subsidy and the remainder of Rs. 4,684 is actually paid. The treaty of 1820 regulates the friendly relations between the State and the British Government. I am entitled to the personal distinction of a salute of 11 guns carrying with it the appellation 'His Highness'. My full name is Shankarrao Chimnaji Pandit, Pant Sachiv, Chief of Bhor. My age is 59. I am a *deshastha brahman* by caste. I have a son and a grandson by that son. I have intermarried with the family of Sardar Vinchurkar.

3. I had the honour to attend the Levee and the Reception held by His Excellency the Governor as well as the Birth-day Darbar held by the Agent for Sardars in the Deccan, at Poona, in the month of June 1912. During my stay at Poona, I had the pleasure of meeting the high European officials viz His Excellency the Governor, the Honourable Members of Council, Secretaries, the Commissioner, the Political Agent and the Agent for Sardars &c. and receiving return visits from them.

4. I had the good fortune of entertaining Their Excellencies Lord and Lady Sydenham at an evening party in the Khandwani Mansions, Poona, on the 23rd of July 1912, in view of Their Excellencies' approaching departure. About 400 persons, including Native Chiefs, the Councillors, the Secretaries, the Hon'ble the Commissioner C. D., the Political Agent and the other High European and native officers as well as a number of notable Hindu, Parsi and Mahomedan gentlemen and Sardars in the city, were in attendance. His Excellency the Governor was pleased to make a kindly and touching reference to me in his admirable and eloquent speech at the party which was a complete success in every way.

5. The speech, which I made at the party and the reply given to it by His Excellency Lord Sydenham are reproduced below:—

Your Excellencies, Ladies and Gentlemen:—

I cannot adequately express the genuine feelings of thankfulness and gratification to Your Excellencies at the very high honour done to me in accepting the party at my hands. I am also thankful to all the Ladies and Gentlemen for their kind response to my invitation. Your Excellency assumed the reins of the Government of the Bombay Presidency in the year 1907 when the atmosphere was cloudy and peace and tranquillity were much disturbed. But the statesmanship, sympathy and noble-heartedness of Your Excellency have been the source of dispelling the clouds and restoring tranquillity and peace throughout the Bombay Presidency. Your Excellency has shown admirable courage, when unfortunately over-weighted with domestic calamity. Your Excellency still stood by your post and carried on the high responsibilities of the Administration of the Government with great fortitude and calmness for the benefit of the people A sympathetic rule of Your Excellency has not only gained the popularity but has conquered the hearts of all the subjects and the rulers of Native States entrusted to Your Excellency's care and the name of Your Excellency has now become a house-hold word.

The visit of Their Imperial Majesties to India for the purpose of holding a magnificent Darbar at Delhi on the 12th of December. 1911 for the announcement of the solemnity of the Coronation, is an unprecedented, glorious, auspicious and most joyful event in the regime of Your Excellency.

His Imperial Majesty has done everything which would conduce to the happiness and greater prosperity of the people of India, and we are all proud to say that His Imperial Majesty King George V, has left an indelible feeling of sympathy and love for his Indian Subjects and the Rulers of Native States in their hearts and this symphonious chord, we are all sure, will continue to ring for many long years to come. We the Princes, Chiefs and people are all much indebted to His Imperial Majesty for the bestowal of several grants, concessions and benefactions upon us. I need hardly say that words fail to adequately express the sentiments of my heart-felt gratitude for the high distinction of a salute of 11 guns accompanied by the title of 'His Highness' so graciously bestowed upon me by His Imperial Majesty at the Imperial Durbar through Your Excellency's kindness, and the name of Your Excellency, it is needless for me to say will always associate with my ever grateful memory. I would be failing in my duty if I did not mention the noble efforts, the interest evinced for the welfare and elevation of Indian women by Her Excellency Lady Clarke and we are equally indebted to Her Excellency for the kind treatment received at her hands. I cannot but express my sincere regret that the time is fast approaching when Your Excellencies will be leaving us here where we all will be plunged in sorrow at the departure of our most esteemed benefactor and friend, and Your Excellency will permit me to assure Your Excellency that you both carry with you all our good wishes.

I now propose the health of Their Imperial Majesties.

Also it is my honour and joy to propose the toast of my illustrious guests, their Excellencies Sir George and Lady Clarke, who have endeared themselves to one and all, and whose names will always be remembered here with warmest affection and gratitude and lastly, to pray that the Almighty God may grant them long life, every happiness and the fruition of all their desires; Ladies and Gentlemen, Sir George and Lady Clarke.

REPLY.

Your Highness, Ladies and Gentlemen among the pleasantest recollections

that I shall carry away from India, will be that of my happy relations with the many Chiefs of the Presidency. It happens that the first Chief to entertain me was our kind host this evening That was in October 1907 and I have not forgotten our meeting on the Mahableshwar road. Since then we have had much business to transact with the Bhor Durbar. The great canal project, which has just been sanctioned, necessitated interchanges of territory and the settlement of other matters. His Highness the Pant Sachiv entered cordially into the project and both he and the Chief of Phaltan, whom I regret not to have met, have assisted Government from first to last in bringing it to the stage of execution. A successor of mine will be so fortunate as to see the abounding prosperity and happiness which the new canal will confer upon the dwellers in some of the driest portions of the Deccan.

Your Highness has referred in the flattering terms to my period of office now drawing to a close. It has been a very strenuous and eventful term bringing with it sorrow and happiness, discouragement and hope. It is not for me to speak of the work I have tried to accomplish; nor can that work be fairly judged for some years. If I have won the trust and affection of the people I have striven to serve, and if those who have differed from me, realize that I had no thought except the good of the Presidency, these five years will not have been spent in vain. Looking back to 1907, I see with thankfulness the change for the better that has since come over the situation. I doubt if the relations between Government and the people, and between race and communities were ever more harmonious than they now are, and it is my earnest hope that those relations will go on strengthening as the realization of mutual needs and of mutual interests in the common welfare, broadens and deepens. My term of office has seen the accomplishment of political reforms in bringing about and inauguranting which, I am glad to have played my part. The results, as I expected, are full of encouragement. But the supreme events in these five years have been the visit of Their Majesties and the unparalleled scenes in Bombay, Delhi and Calcutta. For the first time the ancient Throne of Britain has been brought into close personal contact with the Princes, Chiefs and people of India, who now understand the warm affection with which Their Majesties regard their loyal Indian subjects. On the one side, there was keen solicitude for the welfare of India and the magnetic charm of Their Majesties' gracious presence. On the other side, there was an ever-memorable response from the warm-hearted millions of this country, who plainly showed that their deepest sentiments were aroused. Their fellow-subjects throughout the Empire have thus had a revelation of the depths of Indian loyalty and the ties which link us all in common brotherhood have been closer.

Lady Clarke regrets that her time among you has been too short to accomplish all she wished in helping the women of the Presidency and winning their affection. We shall both part from you leaving much undone; but we take back to England memories deeply graven of the wonderful kindness of the Indian people and of the many friends we have formed among them. I trust that we may still find opportunities of forwarding Indian interests and at least of correcting false impressions and of making the best qualities of Indians more widely known We warmly thank Your Highness for the touching terms in which you have proposed our health. We reciprocate your kindly wishes and we earnestly hope that the progress of the Presidency will continue with harmony ever increasing towards those high ideals of nationhood which all true lovers of India must cherish and uphold.

6. I had been present at the party given by His Excellency the Governor to the members of the Indian National Association on the 16th August 1912.

7. I had been to Satara and Wai in the months of September and October last. Satara Union Club presented a congratulatory address to me and some other notable gentlemen in the city entertained me at Pansupari Parties in honour of the high distinction of the salute of eleven guns that was conferred

upon me by His Most Gracious Imperial Majesty at the unprecedented and unique occasion of the Durbar at Delhi, while I was at Satara. At Wai an address was given to me in the same connection in the Dravid High School.

8. During my stay at Poona in the month of October I had the good fortune to receive a similar address of congratulations and to attend the ceremony of laying the foundation stone of the Poona Edward Memorial Hospital at the hands of His Excellency the Governor and the party given by the Poona Municipality to His Excellency in the Council Hall.

9. I made my annual jamabandi tour in all the five Talukas of the State in the months of December, January and February 1913, when I had an opportunity to mark the well-being and good condition of the rayats and cattle. The crops were generally good this year as the last year's rains were fairly seasonable. The want of fodder that was keenly felt in the State in the months of June and July 1912 on account of large exports of fodder out of the State due to high prices and more urgent need that was prevalent in parts of British India, was happily removed soon after the setting in of the monsoons in right earnest by the end of July.

10. I had gone to Nasik and Trimbak for the Lunar Eclipse in the month of March 1913. It is really a matter of great joy and satisfaction to us all that His Excellency has recovered and begun to guide the destinies of this land as before. We are indeed very grateful to Merciful Providence for miraculously saving Her Excellency from the atrocious attack and restoring His Excellency the Viceroy to his former health. Her Excellency Lady Hardinge deserves to be congratulated on the exceptional courage and fortitude which she exhibited at a time of great trial and which has set a shining example to the women of India.

sympathetic interest he was pleased to evince in me and my State all the while.

102. The detailed account narrated above and the accompanying appendices will show that the administration of the State during the year of report was perfectly efficient and progressive as usual. The crops as well as the supply of water and fodder were normal this year and the people were able to get over the difficulties they had to undergo last year owing to the shortage of rainfall and the consequent dearth of fodder &c. intensified by the heavy demand of the same out of the State. Public health in general was fair. Some of the villages suffered from the cholera epidemic in the beginning of the year as was the case throughout the Presidency but prompt measures were taken to administer relief to the rayats There were no serious offences in the State which have a tendency to affect the public peace. The work of the Forest and Public Works Departments was quite satisfactory. Notwithstanding the heavy congestion of work in the civil courts owing to the introduction of the New Limitation Act three years back, all the courts have done their work with promptness and expedition. The criminal courts have also acquitted themselves well. There was nothing in the working of the Municipalities, the Prison and the other minor Departments that could call for any adverse criticism. The work of the Charitable Dispensary and Sanitation and Vaccination Departments was excellent as before. As suggested by the Political Agent in his remark on the working of the Bhor Dispensary last year, a midwife has been assigned to the Dispensary. This has been found to have popularised the institution among female patients. This year again four new schools of primary education were opened in accordance with the policy followed by the State for the last five years for the spread of free primary education. As advised by the Political Agent last year the head-master of the Bhor High School has been given a promotion along with some of his assistants whose work was reported to have been satisfactory.

103. I am sincerely very grateful to your predecessor Mr. L. C. Swifte, I. C. S., and your kind self for readily and willingly giving valuable advice and support in all matters of importance which has enabled me to carry on the administration smoothly and successfully.

Rs. 5,316 are set off against this amount on account of the elephant subsidy, and the remainder of Rs. 4,684 is paid in actual cash. The treaty of 1820 regulates the friendly relations between the State and the British Government. I am entitled to the personal distinction of a salute of 11 guns carrying with it the appellation 'His Highness'. My full name is Shankarrao Chimnaji Pandit, Pant Sachive, Chief of Bhor. My age is 60. I am a *deshastha brahmin* by caste. I have a son and a grandson by that son. I have intermarried with the family of Sardar Vinchurkar.

3. In the month of June 1913, the thread ceremony of my grandson was celebrated with great pomp and success at Poona. High European officers of the rank of Councillars, Commissioner, and Collector as well as the Chiefs of Miraj and Kurundwad and other respectable Sardars and gentlemen of Poona did me the honour of coming to witness the ceremony.

4. I had the honour to attend the Levee and the Reception held by His Excellency the Governor as well as the Birth-day Darbar held by the Agent for Sardars in the Deccan, at Poona in the month of June 1913. During my stay at Poona, I had the pleasure of meeting the high European officials, namely the Honourable members of the Council, Secretaries, the Commissioner, the Political Agent and the Agent for Sardars &c. and receiving return visits from them.

5. In the month of October last, the Political Agent Poona paid his usual annual visit to Bhor. In a gorgeous procession he was brought through the town to the palace and was entertained at a Durbar. He visited the Bhor High School, and the State Dispensary and was pleased with the management he saw there. The remarks made by him will appear under their respective heads.

6. In November last, some Military and Engineering officers of the Lake Whiting District at Bhatghar paid their visits to me. They were duly received and interviewed with usual ceremonials.

7. I made my annual Jamabandi tour in the Rajgad and Prachandgad Talukas in the same month.

8. In the month of December 1913, I paid a visit to Benares and after staying there for a fortnight or so returned to Bhor in January last via Allahabad and Jubbalpor.

9. On his way to Mahad to open the agricultural Exhibition there the Honourable Sir Richard Lamb, member of the Council, visited and made a short halt at Bhor on the 20th January 1914 He was cordially received and entertained at a Darbar held in his honour. He was pleased to visit the Bhor High School and the Dispensary and after taking his meal proceeded to Mahad.

10. In the month of February last, I visited wai, Mahableshwar, and Satara to inspect my estates there; en route I also inspected the work at Shirval.

11. In the month of March I made the jamabandi of the Pownmawal Taluka.

12. At the time of His Excellency the Viceroy's visit to Bombay, on the 20th March last, I had gone there to pay my respects to His Excellency. I had the honour of being invited to attend the several functions there and had the pleasure to be present at the opening ceremony of the New Dock and the garden party. His Excellency the Governor was pleased to introduce me to His Excellency the Viceroy for which I feel much obliged.

13. Shrimant Babasaheb made his jamabandi tour in the Vichitragad Taluka and personally inspected villages and ascertained the condition of the Rayats.

14. My Karbhari was deputed to do the Jamabandi work of the Sudhagad Taluka this year, in the month of December 1913.

15. In the month of June last, the birth day celebrations of His most Gracious Imperial Majesty and His Excellency the Viceroy were duly performed in the State. Sweets were distributed to the School boys and girls and alms and clothes were given to the poor in honour of His Excellency the Viceroy's birth-day festivity which was specially observed as a great holiday last year throughout India in view of the miraculous and happy escape of His Excellency from the dastardly attempt made upon his life at Delhi in December 1912.

16. My 61st birth anniversary fell on the 27th of March and was joyfully celebrated as the Diamand Jubilee throughout the State. Rewards were given to the state officers and sweets were distributed among the school children. Alms and clothes also were given to the poor and a feast was given to all the servants in honour of the auspicious and unprecedented occasion.

17. The work of the scheme of the extension of Lake Whiting is in good progress and every kind of help and cooperation is given to the officers concerned to facilitate speedy execution as will be seen from the copy of a letter addressed to the Karbhari Bhor State by Mr. C. B. Pooley Executive Engineer Lake Whiting District undr No. 3724 dated 16th May 1914, in that connection given below.

"Subject:—Administration Report of the Bhor State for the current year.

Sir, Referring to the above subject, I have the honour to place on record my appreciation of the valuable assistance rendered by the Bhor State to these works throughout the year.

(*a*) I have frequently requisitioned for land at very short notice, but I have always received prompt assistance from the State and a Surveyor has been invariably deputed at once to co-operate in the measurement. The facilities granted have been superior to those obtaining in British territory even.

(*b*) Similar prompt assistance has been given in the matter of Police, and in many other matters such as collection of lime kunkar, which is always trublesome as it is scraped up from the surface of the fields or else pits are dug, and it is not possible or desirable to acquire such land.

(*c*) Khar boulder quarries are also always difficult as the Wadars break stones wherever they find them without taking permission and regular defined quarries are seldom opened.

(*d*) Further the Bhor State has been pleased to hand over the Bhatghar Kapurval Road, a length of over 6 miles between the Works and the Poona-Bangalore Road for maintenance by this Department, as it affords a short cut to Poona and in exchange for maintenance charges, His Highness has been pleased to exempt toll-charges on all carts connected with these works.

(*e*) Lastly, agreeing to keep Government cash in deposit at the Bhor State Treasury, I have been enabled to draw cheques for all sorts of local payment on Bhor, which is a great convenience, as there is no Government Treasury anywere nearby.

It will thus be seen that His Highness the Chief has taken considerable interest in the Work and has faciliated its progress considerably and my cordial thanks are due to him and to his Karbhari, Rao Bahadur S. A. Satbhai, by whose assistance and support such good relations have been established and maintained."

(Sd) C. B. Pooley.

18. The Honourable Mr. G. S. Curtis C. S. I., I. C. S. and Mr. L. Robertson I. C. S. made a short halt at Bhor on the 2nd June 1914 on their way from Mahableshwar to Poona via Koralkhind and Ambavade. While here the distinguished guests were pleased to be so kind as to accept the State hospitality and grace the Durbar specially held in their honour with their presence. They were also pleased to pay a visit to the Bhor High School and the Charitable Dispensary in compliance with my request. The Honoured guests left Bhor for Poona at 4-30 p. m well-pleased with what they saw here. The remarks passed by them regarding the institutions they visited, will appear under proper heads.

"I visited the dispensary today and I find the institution popular, the insruments clear, the drugs properly arranged, the poisons under the doctor's own lock and key.

The trained midwife has been here nearly a year and has assisted at 20 cases. She can not of course command the confidence of the people all at once, but it is a distinctly progressive move to have a midwife here fully trained and qualified where we find in India a very high percentage of infant mortality and deaths of mothers in child-hood much of which is preventible.

The question of a dispensary at Shirval will be put before H. H. for consideration. It might do well there.

The present dispensary is excellently equipped and no care or expense has been spared to make it suceess."

Dated 11-10-13.

Memo:–Showing causes of increase and decrease in the amounts of receipts as compared with those of the last year.

Item No.

RECEIPTS.

Increase.

5. Increase is due to the duty received from the contractors on the cost price of the opium purchased from Government.

Decrease.

1. The decrease is due to there being no recoveries of arrears of suspension of land revenue as the case was in the last year.

7. The decrease is due to the few jungles being sold this year.

LIBRARY OF THE BOMBAY BRANCH OF THE ROYAL ASIATIC SOCIETY

Bhor, 26 July, 1915.

Sir,

I have the honour to submit the Annual Administration Report of the Bhor State, for the year ending 5th June, 1915.

CHAPTER I.—GENERAL AND POLITICAL.

2. The area of the State is 925 square miles. The population consists of 144,587 souls according to the census of 1911. The gross revenue based on an average of past five years is Rs. 493,539-11-5 The tribute annually payable to the British Government is Rs. 10,000 in *chandwad coin*. Rs. 5,316 are set off against this amount on account of the elephant subsidy, and the remainder of Rs. 4,684 is actually paid in cash. The treaty of 1820 governs the friendly relations between the State and the British Government. I am entitled to the personal distinction of a salute of 11 guns carrying with it the appellation 'His Highness'. My full name is Shankarrao Chimnaji Pandit, Pant Sachive, Chief of Bhor. My age is 61. I am a *deshastha brahmin* by caste. I have a son and a grandson by that son. I have intermarried with the family of Sardar Vinchurkar.

3. I had the honour to attend the Levee and the Reception held by His Excellency the Governor as well as the Birth-Day Durbar held by the Agent for Sardars in the Deccan, at Poona in the months of June and July 1914. During my stay there in the last monsoons I had also the pleasure of meeting the high European officials, including among others the Honourable the members of Council, Secretaries to Government, the Commissioner C. D. the Political Agent, and the Agent for Sardars &c. who were pleased to pay me return visits.

4. It is, indeed, a matter of deep regret and great misfortune that our most popular and beloved Viceroy. His Excellency Lord Hardinge sustained two heavy personal losses by the demise of his wife and son during the course of the last year. The whole of India shares the grief of His Excellency's irreparable bereavements and public meetings were held all over the country to tender heartiest condolence to His Excellency and pay an humble tribute of appreciation of their services to the memory of the departed souls. I was present at the meeting of the citizens of Poona held in the Kirloskar theatre, to give a public expression to their grief at the untimely death of Her Excellency Lady Hardinge and I presided over the meeting of the Sardars in the Deccan, who were assembled at Sardar Panse's residence for the same purpose in the month of July.

5. His Imperial Majesty was pleased to declare war on Germany, Austria

and Turkey last year with the noble view of protecting small states and maintaining the Public Law of Europe, when I at once hastened to assure His most Excellent Majesty's Government through you, of the unswerving loyalty of myself and my subjects like my brother Princes and Chiefs. Meetings were held at Bhor and other places in the State in the month of August last to offer prayers to the Almighty for granting brilliant success to the ever-victorious British Arms in the most just and righteous cause they have espoused and bringing the war to a speedy termination.

6. I paid a contribution of one lakh of rupees towards the Bombay Provincial Branch of the Imperial War Relief Fund in September 1914 which, I am glad to say, was highly appreciated by His Excellency the Governor of Bombay.

7. The officers and other inhabitants of the State paid a separate subscription of Rs. 1,500 to the above Fund; and the women of the State further contributed a sum of Rs. 1,500 towards the women's Branch of the War Relief Fund started under the noble auspices of Her Excellency Lady Willingdon.

8. In the month of September 1914, I paid a flying visit to Wai, Satara and Mahableshwar in order to inspect my estates there.

9. I made my annual Jamabandi tour in the Talukas of Vichitragad, Rajagad and Prachandagad in the month of November last and personally marked the condition of the rayats and their crops, which was found to be satisfactory. The state was then happily free from all kinds of epidemic.

10. In December 1914, the Deputy Sanitary Commissioner paid a visit to Bhor en route to Mahad and inspected the Sanitation and Vaccination departments of the State including the Charitable Dispensary at Bhor. The remarks made by him, will appear under proper heads.

11. In the month of February 1915, I paid a visit to the Sudhagad Taluka and inspected the Jamabandi there.

12. In the month of March, Shrimant Babasaheb made a Jamabandi tour in the Vichitragad Taluka and personally visited some villages in order to acquaint himself with the real condition of the Rayats.

13. The Karbhari visited the Pownmawal Taluka in the month of April 1915.

14. The work of the Bhatghar Dam is well on its way and every kind of help and cooperation is being given to the officers in charge of it as in the previous years.

15. I am deeply aggrieved to state that my grand-daughter Shrimati Soubhagyawati Kashitai Saheb, daughter of Shrimant Babasaheb, died of fever at Poona on the 31st of May last. God's will be done!

16. There are no Residency officials in the State.

17. Rao Bahadur Shridhar Abaji Satbhai, Karbhari relinquished the charge of his office on the 1st of June 1915, and retired on account of old age. He received valedictory addresses from the people as a mark of their appreciation of the meritorious services rendered by him during the 22 years of his Karbhariship. A pension of Rs. 70 per month has been granted to him as a special case on account of his long good work and the requisite sanction of the Government of India has been duly obtained.

18. The services of Mr. Govind Vinayak Dhayagude Sheristedar to the District Judge and Native Agent for Sardars Poona, have been kindly lent to the State for filling the Karbhari's post, at my request by the Government of Bombay for which I am sincerely thankful to them.
